summer intern job description

2 Timothy 2:2 “what you have heard from me in the presence of many witnesses entrust to faithful men who will be able to teach others.”

Our goal for the summer intern program is to provide an opportunity for our interns to grow personally in their faith in Jesus Christ as well as professionally in the area of student ministry. By the end of the summer program, our interns will have a balanced experience as they experience a holistic approach to student ministry.

Weekly Responsibilities

Contact Work (7 hours)

Interns will spend time with the students of Greentree and will be expected to love, shepherd, encourage, and lead the students by example over the course of the summer. The goal of the contact time is to challenge students in the area of personal faith and to meet their friends as we work to expand the sphere of influence of GTCC Student Ministries.

Planning and Attending Program Events (5 hours)

Interns will be involved in planning and executing several events over the course of the summer. These events are designed to aid staff and volunteers in building relationships with GTCC students and their friends. The Interns will run one event at the end of the summer from start to finish.

Interns will have the opportunity to teach biblically based lessons to large and small groups throughout the summer during Sunday School and Bible studies. Interns are expected to prepare and teach a minimum of three lessons.

Professional and Personal Development (4 hours)

Interns will meet regularly with the Directors of Student Ministries both individually and as a group. The group meetings will be geared toward professional development in the area of student ministry. They will follow a reading curriculum that lends itself toward conversations on various topics involving student ministry.

Serving with Hope Unlimited (3 hours)

Interns will gain valuable local community experience by serving with Hope Unlimited. The interns will be given direction by the Hope Unlimited staff on how they can best serve through programs like tutoring, summer work program, summer reading program, etc.
