What is Woman to Woman?

*Every woman carries with her the strengths and weaknesses of her background. She carries the legacy of her past into all her relationships - family, business and church. This program will show participants how to free themselves from the past and focus on the future. It will provide strategies and skills needed to make positive and lasting changes in relationships.

What participants have said:

"This course encouraged me to become a Christian- it has started having a positive effect on my extended family."

"I wasn't sure how it could be a healing experience just to share in a group. I would do that with friends and partner anyway - but it was different! I think the declaration we make joining a group is part of what the difference is and why God can heal us that way. There is such a sense of love and security in a recovery group which you can't get anywhere else."

"I have found the recovery ministry extremely helpful, particularly in complementing the work I had done with my counsellor. The course gave me some knowledge about what I was going through. It helped me understand what Jesus did for me on the cross in a new and profound way. It is good to share my issues with others who understand and don't judge me."

*taken from the careforce website. www.careforce.org
